TENBUSCH

TENBUSCH

Let Tenbusch Inc. help you to expand the role of your boring equipment into tunneling applications and projects.

Tenbusch, Inc. design, fabricates, and manufactures tunneling equipment that can be used with your existing boring equipment to complete tunneling applications. Tenbusch provides tunneling systems consisting of the following components:

- Tunneling Shields can include Excavators / Conveyors
- Pipe Adapters
- Muck Cart and Track
- Backstops.

Tenbusch will provide pipe adapters specifically suited for the make and model of the customer boring machine and compatible with the pipe product to be installed, including:

- Steel Casing
- Reinforced Concrete Pipe
- Pre-Cast Box Culverts.

Whether you need components or a complete integrated equipment system – You can Tunnel and Tenbusch can Help
